Tech Requirements

Stage & AV

(We'll adapt to your venue. If anything here doesn't fit, call and we'll sort it in minutes.)

Audio

One wireless handheld microphone (preferred) - If unavailable, a Lavalie is fine.Mic stand compatible with the handheld.
One open XLR input to the house mixer for short music cues. Joe brings his own playback device; venue provides the XLR line.

Video / Slides

Projector or 16:9 screen connected to house system.
HDMI input for laptop (Mac-ready; we carry common adapters).
Confidence monitor helpful (not required).

Stage Layout

One barstool and one chair on stage.
One bar-height cocktail table with two bottles of water.
Clear performance area front-and-center.

Timing

Load-in/Soundcheck: 45 minutes before doors or as scheduled with AV.
Playback volume: conversational level.

If the venue is tight on gear, we'll flex, just contact us.

ANY Questions? CALL US! 717.433.2200

Joe will coordinate with venue if you'd prefer. Problem solved.

PLEASE NOTE: No podiums or tables on stage; lectern type stands are not usable. Lectern or other equipment used by speakers preceding my Presentation should be removed from the performing area prior to Joe's introduction.
